

# High-performance Matrix Computations Assignment #1

Prof. **Paolo Bientinesi**

`pauldj@aices.rwth-aachen.de`

Due: Monday April 22nd, midnight.

- Write a C program to attain high performance.  
The program has to be somewhat reasonable.
- Measure your performance.
- The program will be compiled with `gcc 4.8.1`.  
Feel free to use all sorts of compiler flags and options.
- Submit by email to `pauldj@aices.rwth-aachen.de`
- **Deadline: Monday April 22nd, midnight.**
